IMPLEMENTATION PLAN: The specifications of this prescription will be submitted to _____ primary care physician and insurance carrier for authorization. Upon approval the specifications will be provided by _____ and delivered to the Center for Assistive Technology for fitting and delivery. Upon delivery, the client will be trained in the use of the mobility device and will demonstrate safe and effective use. In addition, he will be given information about its maintenance. Follow-up appointments will be scheduled as needed to modify the equipment as well as to verify that it continues to meet his needs.

This concludes our face to face assessment and we are all in agreement.
